July 2022

HIMMERLAND
BOLIGFORENING

The resident democracy voted yes

The 7th of July 2022 an extraordinary meeting took place in Kanalhuset. This meeting took place because the planned renovation of the department, unfortunately, can't be managed within the existing financial framework. Therefore, an extraordinary residents meeting had been convened. At this meeting, residents voted on a rent increase, for the renovation to be realized.

At the meeting, the main points concerning the renovation were refreshed and the rent increases for the four types of housing were reviewed. The vote was carried out and the result was a yes to the rent increase and thereby also a yes to realizing the renovation.

Rent increase for the four types of housing:

1 room youth home 34 m ²	DKK 150 per. month
2 room family home 50 m ²	DKK 225 per. month
2 room family home 55 m ²	DKK 250 per. month
3-room family home 81 m ²	DKK 360 per month

The rent increases will take effect as the renovation is completed.

Schedule

The expected schedule looks like this:

Mid-August 2022: Submission of material for authority processing.

October 2022: Municipal authority and conclusion of contracts.

Early November: Renovation work begins.

This schedule is an expected schedule that depends on the authorities processing time of the case. Once we know the schedule for regulatory approval, we will send you a more detailed schedule and we will invite you to meetings where you will get a closer briefing on what is going to happen.

We look forward to a good renovation process. Have a nice summer.
